

FREQUENTLY ASKED QUESTIONS

How long is my session? Sessions can run anywhere from one to two hours, depending upon the setting and the number of individuals. The best photographs happen as you relax in front of the camera and begin to enjoy yourself, so it's best if there are not time constraints.

How will I be able to enjoy myself when I really dislike having my photo taken? One of the things I enjoy most about photography is watching people who say they really dislike having their photo taken relax, get into the session, and yes, even have fun!

What should we wear? Clothing is an important part of a successful portrait. Keep it simple!! Solid color clothing is recommended. Please try to avoid logos or bright patterns. Light colors look more casual and contemporary, while dark tones tend to be more dramatic. Favorites are jeans, khakis, overalls, and sundresses. Feel free to call Lisa if you are unsure.

Do you have a studio? No, I do not have a studio setup. I love the great outdoors, and I love natural light, and I'm a really big fan of natural, environmental portraits, so I schedule all my family sessions, and most of my portrait sessions, outside.

Where will our photography session take place? Wherever you feel most comfortable. I can come to your home, meet you at a field, an urban area, a parking lot, a dark alley (well maybe not there). It's up to you. As long as it's fun and somewhere in the Kamloops area, I'm up for it. If you want some suggestions, let me know :) For travel outside of the Kamloops area, I charge 40¢/km round trip.

How do I book a session? The best way to get in touch with me is through the “Contact Me” link on my homepage. Give me as much info as possible, and I will contact you to set up a time! To finalize your booking and to save your date, I have a contract for you to read over and sign. I also require a a \$100 retainer to book & hold your date.

What if we have to reschedule? No problem! One of the risks of outdoor photo sessions is bad weather. Other risks include sick children, etc. If something unforeseen pops up, we will talk right away and find a new time for your session.

How many photos are included in your package price? The price of your session includes 30 images on a CD. Additional images can be purchased for inclusion on the disc.

Do I get to choose which photos are on my disc? Absolutely! I will put all the proofs in a private online gallery for you within two weeks of your session date. You will choose which photos you would like on the CD.

Will the photos be in color or black and white? Both! All images that are chosen by you for your CD will be included in both color and black and white.

Do you give us copyrights to the pictures? You are given a license to print the images for yourself, and your family. You cannot sell, edit, or advertise with the photo. Along with the full resolution files on the disc you will find a folder called “Web Files” that contains a complete set of images that have been resized and watermarked for use on the web. These watermarked files can be used to put images online or send them in e-mails. If you would like to use the images for something other than the reasons I do allow, please contact me and I will be happy to figure something out with you.
